ABOUT

# SatCen Open Day

As the EU's ambitions in security, space, and defence continue to grow, so does SatCen's team. To attract the brightest talents from across the EU, we are actively seeking students to join us as trainees or employees.

**We believe your role could play a key part in introducing this audience to the Centre's work and opportunities.**

**In this document, you will find all the information and visuals to ensure that the communication about this event is cohesive across all accounts and channels.**

## THE PRACTICAL INFORMATION

**Institution:** European Union Satellite Centre (SatCen).

**Location:** Madrid

**Do you want to:**

- Get practical, first-hand training and work experience in an EU security and defence Agency?
- Join a multi-national team of first-class experts with diverse backgrounds (civil, military and intelligence)?
- Enjoy an intellectually stimulating environment, and an attractive financial benefits package?

And all of that, from a unique location (Torrejón de Ardoz airbase) just 20 minutes outside one of the coolest cities in Europe: Madrid!

**What traineeships do we offer?**

We are looking for profiles that range from:

- Geospatial Science/GEOINT/IMINT.
- Open-Source Information Analysts and Quality Assurance specialists.
- IT profiles (Cybersecurity, AI/Machine Learning).
- Legal, Human Resources, Communications and Finance.

### **Length:**

Traineeships are offered for an initial period of 6 months, with the possibility of extension for another 6 months (max. 12 months).

### **Financial deal:**

Traineeships encompass full-time work experience at SatCen (40 hours a week), and trainees receive a monthly stipend of €1.250 plus just above €200 for transport.

### **Requirements:**

Our traineeships are compatible with Bluebook-traineeships in other EU institutions, i.e.: even if you have been already a Bluebook-trainee in the past, you can apply!

Other than that, candidates must:

- Be nationals of the Member States of the European Union.
- Have recently graduated from university or be in the last year of their studies.
- Have a very good knowledge of at least two EU languages, one of which should be English (minimum level of B2), the working language of the SatCen.

### **Key dates:**

As a general rule, and subject to the needs of the Centre, traineeships are organised via 2 yearly intakes:

- In spring: from 1 April until 30 September. (approx. publication period: October to November).
- In autumn: from 1 October until 31 March. (approx. publication period: April to May).

## THE SOCIAL MEDIA CAPTION

 SatCen Open Day – Streaming Live from Madrid!  
Join the European Union Satellite Centre (SatCen)'s first-ever Open Day! The first hour of this event will be streamed on Youtube—don't miss it!

 Tailored for university students and young professionals in IT, geospatial science, security, and defence, this is your chance to:

- ◆ Explore SatCen's work at the crossroads of space, security, and defence
- ◆ Discover exciting career and traineeship opportunities
- ◆ Hear from former trainees and our expert staff about life inside an EU agency

 Live Streaming: [https://youtube.com/live/6eneuv\\_Lly4?feature=share](https://youtube.com/live/6eneuv_Lly4?feature=share)

 When: 7th February

 Time: 10:30–11:30 CET

Save the streaming link to get a glimpse of how SatCen uses space-based assets like satellite imagery to enhance EU security and defence.
